Re: Philip Morris Incorporated
Mexican Patent Application 129592
Your reference: 582-736 Mexico

Dear Mr. Brandt:

I am pleased to attach a xerox copy of official letter No. 37-II-106464 dated November 25, 1972, by which the Bureau of Industrial Property suggests amendments to the above mentioned patent application.

According to it, we have to amend the patent with the following:

a). Presenting the invention as a process to expand tobacco, giving in a clear form the steps to be taken, in clause 1;

b). Changing the title of the invention according to the amended clauses;

c). Converting Fahrenheit degrees in Centigrades;

d). Omiting clauses 17, 18 and 19, because they rest unity to the invention;

e). Reducing the number of claims;

f). Paying $144.00 for first amendment fees.

Our engineer has prepared the new claims as appear in the attached copy, of which you will find English and Spanish versions.

We have until March 20, 1973, to submit said amendments.

Please advise.
